### Who We Are

The South Carolina Public Charter School District (SCPCSD) was created by the South Carolina General Assembly. The state thus established a viable avenue for parents, teachers, and community members to form new, innovative, and responsive ways of educating children within the public school system.

The mission of the SCPCSD is to improve student learning and increase learning opportunities in South Carolina through the creation of innovative, high-quality public charter schools. Ultimately, we strive to assist South Carolina in achieving positive academic recognition.

### Our Schools

As of the 2010-2011 academic year, there are eleven schools in the SCPCSD, of which six of these schools are “brick and mortar” schools and five of these are “virtual schools.” Some of the brick and mortar schools are adding grades each year as they ramp up their enrollment. We have approximately 1,500 students in these six brick and mortar schools.
