

Directions: If you have optional measures that you wish to incorporate into an Alternative Education Campus School Performance Framework, please complete the form below. There should be one form completed for each proposed measure. **Parameters:** Schools may supplement the required measures with 3-5 optional measures. These optional measures must be distributed between indicators and must include coverage of a reasonable number of students, with a goal that the overall framework will represent evaluation of all students. All measures are subject to modification and approval by the SCPCSD.

Alternative Education Campuses Optional Measures	
School Name	
<p style="text-align: center;">Indicator</p> <p><i>Which of the four SCPCSD indicators will this measure supplement (achievement, growth, student engagement, postsecondary or workforce readiness)? How will this measure contribute to the indicator construct? How is it different from the other measures used to evaluate this indicator?</i></p>	
<p style="text-align: center;">Population Coverage</p> <p><i>Approximately what proportion of the student population will this measure cover? Please explain in detail.</i></p>	
<p style="text-align: center;">Measure</p> <p><i>Explicitly define the measure. How will you assess and demonstrate performance towards this goal?</i></p>	
<p style="text-align: center;">Metric</p> <p><i>How will you quantify this measure? (You must identify the methodology used to determine, document and calculate your measure. This can include a specific rate, calculation method, formula, and/or process, including specific definitions such as pre-post qualifiers).</i></p>	
<p style="text-align: center;">Target-Setting Standards</p> <p><i>What do you expect to achieve using the metric detailed above? How will this translate into standards that align with SCPCSD and SCDE expectations? What are the proposed cut points? Note that 2-year targets of approved measures should be reported in the Target-Setting Form of future versions of your SCDE Annual Report for this measure.</i></p>	
	Exceeds:
	Meets:
	Approaching:
	Does Not Meet:
<p style="text-align: center;">Measure Selection Details</p> <p><i>How is this measure a reflection of the school's mission, and why is your chosen method of assessment appropriate and useful for measuring performance toward this goal?</i></p>
