

This form is intended to launch the individual tailoring of the School Performance Framework (SPF) for each school. As part of our goal to develop performance frameworks that build upon the evaluation lens utilized by the state and District, we believe each school's framework should contain measures that are representative of your individual program. If you have mission-specific measure that you wish to incorporate, please complete the form below. There should be one table completed for each proposed measure. All measures are subject to modification and approval by the District. For any questions, please contact Kristen Stolpa at kstolpa@sccharter.org.

Mission-Specific Measures	
Mission and Vision	
Measure Name	
Indicator <i>Describe the indicator this measure will reflect? How is it different from the other measures used to evaluate this indicator (if in conjunction with more than one measure)? How is it different from other framework indicators (achievement, growth, growth gaps, PSWR)?</i>	
Mission-Specific Performance Goal <i>Clear, measurable statement(s) of achievement reflecting the mission and tied to a specific period of time (How will you know you have achieved this goal?)</i>	
Measure <i>What will you evaluate to demonstrate performance towards this goal?</i>	
Metric <i>How will you quantify this measure? (You must identify the methodology used to determine, document and calculate your measure. This can include a specific rate, calculation method, formula, and/or process, including specific definitions such as pre-post qualifiers).</i>	
Target-Setting Standards <i>What do you expect to achieve using the metric detailed above? How will this translate into standards that align with SCPCSD and SCDE expectations? What are the proposed cut points? Note that 2-year targets should be reported in the Target-Setting Form of future versions of your SPF profile for any approved measure.</i>	Exceeds:
	Meets:
	Approaching:
	Does Not Meet:
Measure Selection Details <i>Why is this goal important to your mission? Why is the chosen method of evaluation appropriate and useful for measuring performance toward this goal?</i>
